October 10, 2023

Today's Agenda

Department Emergency Plans

Radio Testing

Emergency Backpack Redistribution

Everbridge Notification System

Drills/Training
- Fire
- Active Shooter
- Fire Extinguisher

Next Meeting January 9, 2024

Questions/Comments

Emergency Plan

Departments are required to develop and maintain a department emergency plan that covers the following:

(1) all the locations under the department's jurisdiction, and

(2) all the locations where employees have regular work assignments

The department emergency plan also includes a recovery plan, which identifies critical tasks for each location that must be performed during emergencies if time permits (e.g., shutting down equipment, saving computer files, locking cash drawers, protecting research or historic materials).

For additional details on Emergency Management and Mission Continuity, see their website at http://safetyservices.ucdavis.edu/ps/ecp/emergencyManagement

Radio Testing

- Do you have a radio?

- We need to test them to ensure they are working

- If you do, please label with unit and drop off at the Welcome Desk for testing.

Backpacks Have Been Refreshed

Water
Granola Bars
Flashlights
Mrak Coordinator Hats
Flashlight
CPR Mouth Guards
Emergency Manual
First Aid Kits
Water
Ice Pack
Emergency Response Guide

Mrak Hall & everbridge™

We are excited to announce testing of the Everbridge notification system is now complete. This is a wonderful tool that can be used to send timely communication regarding critical events that take place in and around Mrak Hall. Everbridge will be used when there is a need to communicate with the occupants of Mrak Hall quickly and efficiently. Download the app from your mobile device store.

If there is someone in your unit that does not receive the messages, they can email ocpbusiness@udavis.edu asking to be added to the Mrak Hall Everbridge Group with their name (First, Middle Initial, Last) and e-mail address and we will ensure that they are added to the group.

Please note that the contact information populated in Everbridge pulls from WarnMe.

Mass Notification

Keep everyone informed before, during, and after critical events with targeted communications
